Bad boy! Bad girl!

*This retrospective album is dedicated to my kids Sidney and Riley, who are totally not kids anymore. Frankly, you were always more mature than your father. And finally... thank you, from the bottom of my heart, * to all the fans, performers and collaborators who made this happen... the positive energy you bring to me is something I am deeply grateful for.*

— **Doctor Noize**

Also the top of my heart. *

Also the middle of my heart. *

****My whole heart, really. A silly expression when you think about it. *****

*****Let's not think about it too much.*
